DEFINITIONS

Welcoming, Caring, Respectful, Safe and Inclusive School Learning Environment: A school community that is physically, emotionally, intellectually and psychologically safe for students and staff. It is an environment wherein everyone is accorded respect and dignity, and their safety and well-being are paramount considerations.

School Community: Includes students, school staff, school council, parents/guardians, community members and others (including the Board and Division Office) with ties to the interests of the neighborhood school and school division.

Violent/Threat Making/High Risk Behaviours that may require an Assessment/Intervention:

Immediate: A threat to harm and being in possession of a weapon

High Risk: Being in possession of a weapon, sexual intimidation, fire setting, making bomb threats and threats to kill or injure others

Worrisome: Drawing pictures, writing stories or making vague statements that do not, of themselves, constitute uttering threats but are causing concern because of their violent or destructive content.

Bullying: Bullying is a relationship problem and is an assertion of interpersonal power through aggression. It involves repeated and hostile or demeaning behaviour by an individual in the school community where the behaviour is intended to cause harm, fear of distress to one or more other individuals in the school community, including psychological harm or harm to an individual's reputation and is marked by an imbalance of power.

Bullying may include, but is not limited to: Repeated incidences of physical aggression and assault; extortion; verbal or written threats; social alienation; including degrading comments with regard to race, gender, religion or sexual orientation; teasing, put downs and humiliation; threatening looks, gestures or actions; hurtful rumours; false accusations; or the use of technology to disseminate hurtful intentions. Bullying is **NOT** Social Conflict. A disagreement or difference in perspective and is a normal part of social interaction. Students may require support to learn how to resolve their conflicts respectfully and productively.

The four most common types of bullying are:

- **Verbal Bullying**—repeated name calling, sarcasm, teasing, spreading rumours, threatening, making references to one's culture, ethnicity, race, religion, gender, or sexual orientation, unwanted comments.

- *Social (Relational) Bullying*—repeated mobbing, scapegoating, purposely excluding others from a group to cause harm, humiliating others, gestures or graffiti intended to put others down.
- *Physical Bullying*—repeated hitting, poking, pinching, chasing, shoving, coercing, destroying possessions, unwanted sexual touching.
- *Cyber Bullying*—repeated use of the internet or text messaging to intimidate, put down or spread rumours about someone, including anonymous acts.

Discrimination:

Negative differential treatment of a person or group on the basis of race, religious beliefs, colour, gender, physical disability, mental disability, age, ancestry, place of origin, marital status, source of income, family status or sexual orientation.

Inclusive:

A way of thinking and acting that demonstrates universal acceptance of, and belonging, for all members of the school community.

Intimidation:

Behaviour which is reasonably known to cause fear of injury or harm.

Restorative Practices:

A practice that evolved out of *Restorative Justice*. It is a process to involve those who have a stake in a specific offence and to collectively identify and address harms, needs and obligations, in order to heal and put things as right as possible. While there are different processes under the ‘restorative justice’ umbrella, the underlying principles remain the same.
