Our Mission

Chinook’s Edge School Division will engage every student in meaningful learning by challenging, encouraging and believing in them.

Our Vision

Chinook’s Edge School Division will be universally recognized as a collaborative learning community where learning is personalized for all students to achieve success as compassionate and innovative global citizens.

Our Accountability

The Annual Education Results Report for the 2015-2016 school year and the Education Plan for the three years commencing September 1, 2016 for Chinook's Edge School Division were prepared under the direction of the Board in accordance with its responsibilities under the School Act and the Fiscal Management Act. This document was developed in the context of the provincial government's business and fiscal plans. The Board has used the results reported in the document, to the best of its abilities, to develop the Education Plan and is committed to implementing the strategies contained within the Education Plan to improve student learning and results.

This document reflects an ongoing contribution from the Board of Trustees, central office leaders, school based administrators, teachers, support staff, parents, and students. It is both a look back at where we have been as well as a plan that will help to establish priorities that guide division programming and chart a path for the future. It is also designed to provide all stakeholders with goals and objectives for the enhancement of educational opportunities for students, and to keep school communities informed of the direction our division is committed to following.

Chinook's Edge Board of Education approved this combined Annual Education Results Report for the 2015-2016 school year and the Three-year Education Plan for 2016-2019 on November 30, 2016.

Mrs. Colleen Butler
Chair of the Board of Education

Mr. Kurt Sacher
Superintendent of Schools

Facility and Capital Projects

The Board of Education for Chinook's Edge School Division No. 73 has approved its Three Year Capital Facility Plan that includes new school construction as well as major modernizations of existing schools.

The following projects are currently in progress:

- École John Wilson Elementary School in Innisfail – An upgrading of the heating and ventilation system and an interior modernization. Expected completion date is June 2017.

Collaboration and Communication with Stakeholders

The Chinook's Edge School Division No. 73 Three-Year Education Plan and the Annual Education Results Report is posted on the website at www.cesd73.ca/Publications.php. Copies are also sent to all school councils and school principals.

In addition, the following strategies are used to communicate and collaborate with our stakeholders:

- **Education Planning** – School leaders create their school education plans collaboratively with staff, school council, other school leaders, the Board, and our central office leadership team. All plans and school data are available on school websites.
- **Parental Feedback** – School and division leaders use a wide variety of tools to collect feedback from parents. These include, but are not limited to, focus groups, online surveys, parent interviews, special event entrance/exit questionnaires, course evaluation forms, and school council meetings. In addition, our division-wide Parents Matter Committee provides parents from across the division with opportunities to dialogue with the Board and Central Office leaders.
- **Everyone Matters** – Several committees exist to allow central office leaders and trustees to hear from stakeholders: Teachers Matter, Students Matter, Support Staff Matter, Parents Matter, and Division Office Staff Matter.
- **Division Communications** – Staff Newsletters, Community Newspapers, Media Releases, Board Highlights, Division and School Websites, Twitter, Facebook, communications with local media, communication support to schools, new Webcast video messaging.

Transportation

Our Transportation Services department works closely with parents and the Board to provide safe transportation to approximately 5,000 students each year. We are proud of our bus drivers and transportation staff who provide high levels of service to our students.

Recent highlights and successes from Transportation Services include:

- 7 new buses were purchased this school year with funding help from the Board.
- New routes in Sylvan Lake were developed to accommodate the boundary changes and the opening of Beacon Hill Elementary School
- Budget continues to be a challenge with an anticipated deficit of over \$500,000.00 for the current school year
- An increasing desire for in town busing in larger communities is proving to be a challenge within the funding framework provided for transportation
- Collaborative Partnership with Red Deer Catholic Regional Schools focused on providing shared transportation.

Trends, Issues and Challenges

The following trends and issues continue to create challenges for Chinook's Edge School Division No. 73. The Board and Superintendency team have made Alberta Education aware of these challenges and will continue to work collaboratively with the Province to discuss solutions and strategies in the upcoming years.

- **Inclusive Education** – Over the past number of years, it has become very apparent that the needs of our students who make up our classrooms have been increasing. These increased needs require professional development for staff, access to specialized consultants from the division/region, trained support staff, collaborative partnerships, and time for teachers to plan, develop and meet about individualized student support plans. All of these additional supports require school divisions to have adequate access to resources and funding from the province. While we appreciate the funding we receive for inclusive education, we want to be sure the province is aware the expenditures to ensure appropriate and reasonable supports are in place do not match the funding allocation provided. We trust the funding allocation model will be reviewed and revised so the funding adequately supports the costs for providing high quality inclusive education in Alberta.
- **Transportation** – The transportation needs and expectations of our students and parents continue to exceed the resources made available to Chinook's Edge School Division No. 73. Increases to the cost of fuel have not been funded accordingly for the last five years. In addition, the lack of adequate funding along with the increased demand for our limited resources has made it difficult to evergreen our bus fleet. As such, the foreseeable future looks bleak for capital replacement. Implementation of the Carbon Levy may bring a fiscal challenge in the near future. Finally, there has been a substantial increase to the demand for urban busing without government funding. Overall, Transportation Services faces major shortages in budget areas such as staffing, capital, and other operational costs.
- **Facilities** - As community populations continue to increase, we face challenges with enrolments over school capacity. While we have been able to manipulate our school grade configurations, it is becoming increasingly evident that our facilities must be a priority.

Whistleblower Protection

Section 32 of the Public Interest Disclosure Act (2013) requires that school authorities include their annual report of disclosures in their AERR. Chinook's Edge School Division did not have any disclosures this year, therefore, there is nothing to report.
