

How to manage distribution lists.

1. Make sure you start with the website email. (not Outlook)
2. Then in the upper right hand corner click on "Options" and then on "See All Options..."
3. Now over on the left hand side there is a link called "Groups" to click on. After a few seconds you will see a list of groups that you Belong to and a second list of "Public Groups that I Own" on the right.

Public Groups

A public group is a collection of two or more people in an organization's shared address book. You can create groups, which will appear in the address book for others to use. Group owners can restrict membership. You can also join or leave an existing group.

4. Double click on the group that you want to manage. In this case “cremmiddle” and you will see this,

The screenshot shows a web browser window titled "Group - Google Chrome" with the URL <https://email.chinooksedge.ab.ca/ecp/MyGroups/EditDistributionGroup.aspx?pwmcid=3&id=8af2...>. The page displays the "cremmiddle" group settings. Under the "Membership" section, there are two red arrows pointing to the "Add..." and "Remove" buttons. The "Members:" list includes "Cathie Sutherland" and "Cherra-Lynne Olthof". At the bottom of the page, there are "Save" and "Cancel" buttons.

Choose either Add or Remove as needed To Remove you just highlight the name you want to remove and click on Remove.

5. If you click on Add a new window that looks like the following one will popup. At the top is a search bar where you can search for the person you want to add. You can either search for their full name or their username or just the first few letters of either. Once you have typed in your search name then click on the microscope icon to the right and it will find all names that match. Then select the correct person and click on Add at the bottom left. Then click on OK.

You can add a number of people before clicking on OK if you need to add more than one.

6. After clicking OK on the screen above you will be brought back to the main screen. Both for Add and Remove you need to make sure you click on SAVE at the bottom right or all your changes will NOT be kept.
