

Calculating a student's grades to determine if they qualify for Alexander Rutherford Scholarships (ARS) has been a cumbersome process in the past. Now a new program that links into PowerSchool uses marks that have been stored to do the calculations.

Connecting to Rutherford

On the Left Navigation Menu under Reports, a new link has been added called "**Rutherford**". This will link to the system that does the calculations. Clicking on this will open a dialogue box requesting a User Name and Password. **This information will be the same as it is for computer or email login since the system is drawing login information from our Active Directory rather than the PowerSchool.**

Using the Alexander Rutherford Scholarship Report

The image shows a screenshot of the 'Alexander Rutherford Scholarship Report' interface. At the top left, there is a 'PowerSchool' logo with a blue arrow pointing to it from a box labeled 'Returns to PowerSchool'. The main interface has a title 'Alexander Rutherford Scholarship Report' and a subtitle 'Year: 2014-2015 (Year based on the selected year/term in PowerSchool)'. Below this is a 'Select Grade:' section with three radio buttons: 'Grade 10' (selected), 'Grade 11', and 'Grade 12'. A green arrow points from a callout box to the 'Select Grade:' label. Below the grade selection are three buttons: 'Calculate By Student', 'Display Honors', and 'Calculate Grade'. A blue arrow points from a callout box to the 'Calculate By Student' button. A red arrow points from a callout box to the 'Display Honors' button. A purple arrow points from a callout box to the 'Calculate Grade' button. At the bottom, there are two lines of text: '- As per ARS, all grades of 'P' have been converted to 50%' and '- All 30 level courses are taken from AB Blended Mark'.
